**The Milk Producers' Organisation (MPO) is a representative organisation focused on empowering the primary sector of the South African dairy industry through rendering a variety of innovative services to the milk producers.**

We, as an organisation, work towards our mission of sustainable dairy farming for all. We do this by enhancing the profitability, sustainability, and competitiveness of the South African dairy industry, enabling the sector to be best positioned to operate successfully in the future.

The Milk Producers' Organisation (MPO) is proud to host the Total Mixed Ration (TMR) Conference, a premier event dedicated to advancing the complete feed system for livestock, including both red meat and dairy cattle. This conference which will take place at the Radisson Hotel OR Tambo (Gauteng) on 8 - 10 June 2025, is designed to bring producers from across the industry together, providing a platform for exploring innovative feeding strategies and solutions.

Attendees will gain valuable insights into optimising feed efficiency, enhancing animal health, and boosting overall productivity. The conference program features a diverse line-up of expert speakers, each bringing a wealth of knowledge on the latest developments and best practices in feed management.

The 2025 TMR Conference presents a unique networking opportunity for dairy and red meat producers, input suppliers, feedlot operators, and veterinarians. By fostering connections among key stakeholders, the conference aims to facilitate collaboration and exchange of ideas that can drive industry advancements. Whether you are looking to refine your feeding strategies or explore new products and technologies, this event promises to be an invaluable resource for all involved in the full feed system.

We would like to take this opportunity to thank you for a generous attitude towards the MPO and boldly invite you to attend our upcoming event as an exhibitor.
